ENVIRONMENTAL POLICY STATEMENT

Siderise Insulation Ltd specialises in the design and manufacture of products for use in fire compartmentation, noise control and thermal insulation.

The management team of Siderise Insulation Ltd fully recognise the need of the organisation to protect the environment. We are fully committed to the development, implementation and improvement of the Environmental Management System. Accordingly, we have required that the Company develop, implement and utilise fully, an Environmental Management System meeting the requirements of ISO 14001:2015, to assist in protecting the environment.

Siderise Insulation Ltd are committed to:

- Complying with relevant environmental legislation and other requirements by:
 - Regularly reviewing our compliance obligations.
 - Conduct audits to ensure we are compliant.
 - Monitoring our key processes and maintaining our assets.
- Protecting the environment through preventing pollution and managing our waste by:
 - Minimising waste to landfill by reducing our waste generation and by segregating and recycling waste where economically and operationally feasible.
 - Minimise our emissions from adhesive use by maintaining our machines in line with statutory requirements and investigate more environmentally friendly alternatives.
 - Minimise our emissions from heating oil use by minimising non-essential use and minimising heat loss within our buildings.
- Continually improving the effectiveness of our EMS and processes to reduce our impact on the environment by:
 - Holding management review meetings to identify potential risks and opportunities.
 - Review policy and procedures for relevance and accuracy.

Siderise Insulation Limited recognises that protecting the environment is everybody's responsibility and as such is committed to ensuring our people have adequate resources, training and communication about our environmental aspects and impacts, legal requirements and environmental objectives, processes and performance.
