The certificate and schedule are held in force by regular annual surveillance visits by Intertek Testing Services NA, Inc. and the reader or user should contact Intertek to validate its status. This certificate remains the property of Intertek Testing Services NA, Inc. and must be returned to them on demand. This Certificate is for the exclusive use of Intertek's Client and is provided pursuant to the Certification agreement between Intertek and its Client. Intertek's responsibility and liability are limited to the terms and conditions of the agreement. Intertek assumes no liability to any party, other than to the Client in accordance with the agreement, for any loss, expense or damage occasioned by the use of this certificate. Only the Client is authorized to permit copying or distribution of this certificate and then only in its entirety. Use of Intertek's Certification mark is restricted to the conditions laid out in the agreement. Any further use of the Intertek name for the sale or advertisement of the tested material, product or service must first be approved in writing by Intertek. Initial Factory Assessments and Follow up Services are for the purpose of assuring appropriate usage of the Certification mark in accordance with the agreement, they are not for the purposes of production quality control and do not relieve the Client of their obligations in this respect.

LISTING INFORMATION

Product Covered

Siderise Insulation Limited - XFS

Product Description

XFS is made by converting stonewool, using a unique manufacturing process, into a pre-compressed form with vertical fibre orientation and aluminium foil facings.

The XFS family of passive fire protection products are marketed under a number of product references depending on the application within the building as per manufacturer's installation instructions, for example:

- a. CH - Cladding Horizontal 'Closed state'
- b. CW - Curtain Wall
- c. EW - External Wall
- d. EWI - External Wall Intumescent (XFS + Intumescent**)
- e. RH - Rainscreen Horizontal 'Open state' (XFS + Intumescent**)
- f. RV - Rainscreen Vertical
- g. TW – Tops of Walls
- h. RF – Raised Access Floors
- i. SC – Suspended Ceilings
- j. IC - Industrial Cladding

Material Ratings

EN 13501-1	Reaction to Fire Classification	A1*
------------	---------------------------------	-----

*This classification is valid for thickness range – 50mm to 175mm and is valid for mechanical fixing, with/without joints on gypsum board or any A1 or A2-s1, d0 substrates.

**Intumescent material component of the above systems is not covered in the reaction to fire classification. The above Reaction to Fire Classification is only for the XFS material.

Contact manufacturer for application specific requirements as they are not covered under this listing.
